Career Objective:
To build a strong foundation in **Computer Science and Engineering**, enhance my skills in **programming, web development, and problem-solving**, and continuously learn emerging technologies to contribute effectively to innovative and impactful projects.

Education:

B .Tech – Computer Science and Engineering (AI)

Rungta college of Engineering and Technology (RCET) , Bhilai | Chhattisgarh Swami Vivekananda Technical University(CSVTU) | 2024 – 2028 | CGPA : 7.5 (up to 3rd semester)

Technical Skills:

Language: C , python , HTML , CSS , JavaScript

Tools : GitHub, Visual code , anti-gravity, kiro.ai

Currently learning: DSA , MERN stack (MongoDB , express.js) &, SQL

Projects:

Dictionary web Application

- A beginner-friendly web application that allows users to search for word meanings, definitions, pronunciations, and related information using a dictionary API.
- Built using HTML, CSS, and JavaScript, it fetches data from an external API and displays results in a simple and user-friendly interface.

Technologies: HTML, CSS, JavaScript, REST API

Safe Browser

- A web application designed to help parents monitor and protect children from accessing harmful or inappropriate online content.
- Detects unsafe content and sends an alert/notification to the parent's phone, improving online safety for children.

Note Management App

- A responsive note-taking application that enables students to create, organize, edit, and manage their notes efficiently.
- Features a clean and simple user interface with a responsive design, ensuring a smooth experience across different devices.

Certifications:

- Programming in C – Infosys Springboard (Jan 2025)
- Google Cloud Presents: Agentic AI (Sept 2025)
- Gemini Academy 2025 – Google / upEducator (Dec 2025)
- MERN Full Stack Development – Coding Spoon Edutech Pvt. Ltd. (Jan 2026)
- RanchiHacks (Feb 2026) enhanced teamwork, rapid prototyping, and real-world problem-solving under deadlines.

Achievements:

- Built multiple functional web applications including API-based and UI-focused projects during early-stage development learning.
- Actively participated in national-level programs and hackathons, gaining exposure to real-world technical problem-solving.
- Consistently improving technical skills through structured certifications and self-driven project development.
- Developed strong foundation in programming and web development within a short learning period through consistent practice.

Positions of Responsibility:

Core Team Member – RanchiHacks Hackathon (2026)

- Played a key role in supporting **event operations, technical coordination, and participant engagement** during the hackathon.
- Contributed to strengthening the developer community by assisting in collaborative activities and ensuring smooth execution of technical sessions.

Soft Skills: Communication, Leadership, Teamwork, Adaptability , Problem solving ,
